Walk to School Week  
15th - 19th June 2026

Dear Parents and Carers,

Our Junior Road Safety Team have organised a Walk to School Week from 15th - 19th June 2026. Our aim is to promote cleaner air around our school and reduce the number of vehicles around the front of the school at school drop off and pick up times.

Our hope is to encourage as many children as possible to walk, cycle or scoot to school during the week. Each morning, class teachers and the class Eco Warrior will ask pupils how they have travelled to school. All children that have walked, cycled, scooted, used public transport or parked a little further from the school and walked the rest of the way, will be given a special ticket to enter into a prize draw. First prize is an amazing scooter, second and third prizes are Amazon vouchers for you to spend on whatever you like! A huge thank you to our school PFA who have kindly donated the money for our Eco Team to purchase these prizes. Whilst we understand you may not be able to achieve this every morning, we encourage pupils to try and travel more sustainably to school at least once during the week. This also gives your child an opportunity to enter the competition to win the great prizes on offer.

We would also like to encourage more children to 'Park and Stride' on their journey in to school. We ask that parents park a little further away from the school gates and walk a short walk into school. This will help to keep the front of the school safer for pupils not having to navigate numerous cars at the busy time of the morning and end of the school day.

Thank you for your continued support,  
Miss Kenney and the Eco Team
