THE YEAR 6 LEARNING JOURNEY PRESENTS...

Enterprise 2026

Each year in year six, we launch a task that is based entirely around learning the art of business, teamwork and generating profit. The funds raised go towards the end of year events and celebrations that we plan and host. We feel it is really important that our year six children have a truly memorable ending to their primary school journey.

Each year we review the process and make changes based on feedback, and in particular this year, the introduction of new legislation: Benedict's Law. Over the years, the experience has become increasingly reliant on parental support at home. We want to ensure that the focus returns to enhancing the learning opportunities in school. Because of this, Enterprise will look slightly different.

Over the next five weeks, children will be working in their teams to research, design, plan, create and develop their products which will be sold at our 'KMPS Christmas Market' after school on Friday 4th December 2026 (3:10-4:00).

All products will be purchased through the school and time will be given within the school day to create, craft, design and develop their end products ready to sell.

This is always a truly valuable learning experience for all of the children. We are excited to explore the ideas, profits and end products with the children and see how much money they can make.

We hope that your child is available to sell on Friday 4th December, but if there are any issues or questions, please do not hesitate to get in touch.

Thank you, as always, for your support.
The Year Six Team
